WORK EXPERIENCE

Full Stack Developer

As a Freelancer

📅 May 2016 - July 2017

- During these period, I developed several websites for many clients and gained creativity, self-motivation and passion.
- I developed them using MERN stack, PHP, JavaScript, Nest.js and socket.io.

Full Stack Developer

Gemma Keith

📅 September 2017 - October 2017

📍 Kent UK

- I used ReactJS/NodeJS and MongoDB as a Database.
- I used styled component and css for style.

Full Stack Developer

KB Group

📅 February 2018 - March 2018

📍 Manchester, UK

- I developed this website with ReactJS/NodeJS and MongoDB.
- Style implemented using Styled Component.

Full Stack Developer

Mindbox

📅 June 2020 - August 2021

📍 Moscow, Russian

- I developed this site with ReactJS/NodeJS using MongoDB as a Database.
- It used styled component library for style.

Blockchain & Unity Developer

As a Freelancer

📅 February 2019 - October 2021

- I developed projects related to NFTs like Minting/Stacking sites, NFT market place and etc.

CAREER OBJECTIVE

As a passionate, self-motivate Web & Blockchain developer, I love to create new way of solving technical problems and designs rather than following safe, old method.
And moreover, I love what I do.

EDUCATION

Bachelor of Science

Computer Science

[University of Texas](#)

📅 2012 - 2016

📍 Texas, U.S

SKILLS

- JavaScript (ES6, React, Redux, Hook, Node.js)
- MongoDB
- MySQL
- Typescript
- HTML/ CSS
- PHP
- Blockchain
- Smart Contract
- NFTs
- Unity
- Socket.io
- C#

- I developed unity games like 2D interstellar spaceship, Word 4 Word games-similar to wordler, Threestraight games, ToetoToe games, Ragnarok.
- I wished to make NFT games but didn't.
